

SETTING UP APPLICATION ENVIRONMENT

DOCKER INSTALLATION

Step 1: Go to the official Docker website:

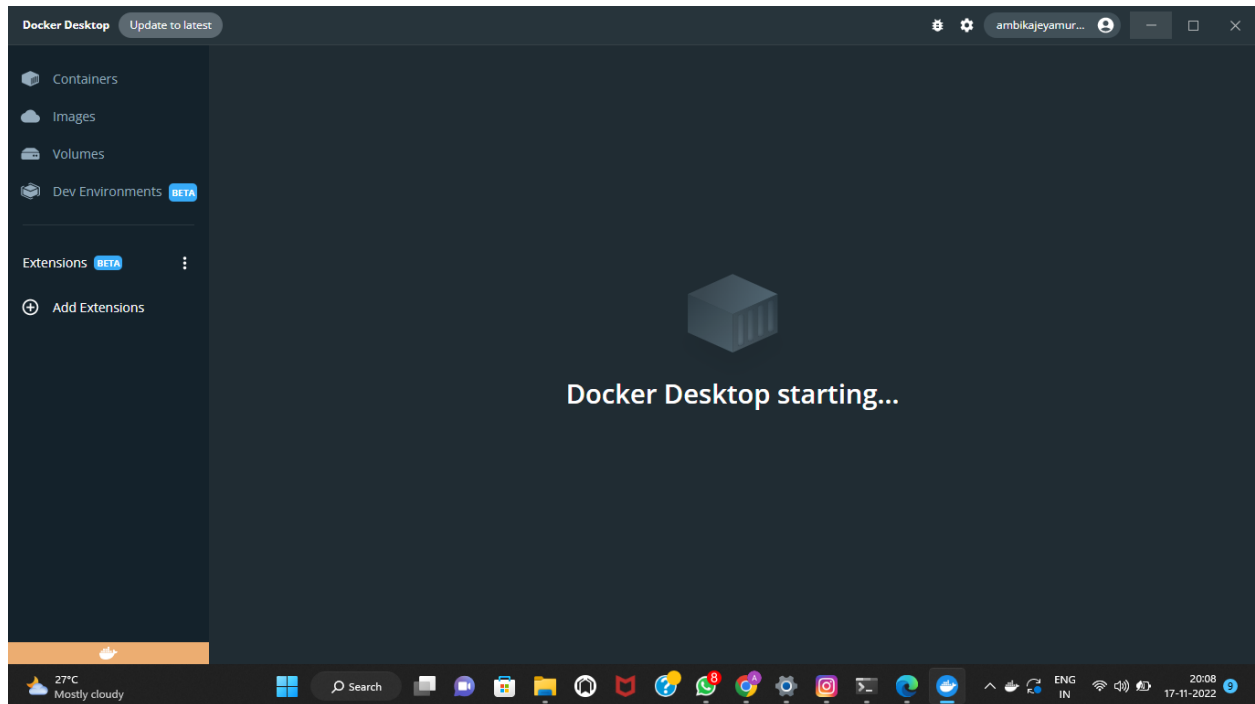

<https://docs.docker.com/desktop/install/windowsinstall/>

Step 2: Click that button (Docker Desktop for Windows) and download will start and it takes a few minutes to complete.

Step 3: Go to downloads in browser (or) type ctrl + J, it will navigate to the download page and double-click the particular docker file.

Step 4: Now Installation is complete. This icon was added to your desktop. Double-click the icon to Start the docker app, you can register and login that app to access those credentials.

Step 5: Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully.

Step 6: Finally, Docker is installed successfully.
